After three successive ballots had been taken in the closest election ever held for department commander of the Spanish War Veterans, Capt. Edward L. Cogan, of Richard Harden Camp, was elected to succeed Capt. J. Walter Mitchell. Dr. Joseph M. Heller, of Lawton Camp, was the defeated candidate.

A motion was made, after the announcement of the ballot, that Cogan's election be made unanimous. A rousing cheer greeted the motion, and the defeated candidate was the first to shake the new & mander by the hand.

The election was held in G. A. R. Hall, 1412 Pennsylvania avenue, and the veterans were there in a body to attend their annual encampment, the interest ran high in the election, the friends of each candidate backing their man to the last, making it necessary to cast the ballot three times

#### "GEN. HUMIDITY" RETURNS. Washington Again Visited by Hot

Spell. "Gen. Humidity," after a brief absence returned to the city yesterday. His advent, however, was the occasion of no bonfires, and though his reception was warm, it could not be termed enthusiastic. Washingtonians were too busily engaged in surveying the thermometer and in journeying to the ice cream plants, soda fountains, and other cool drink emporiums to engage in demonstrations of any character.

A glance at the weather prognostications was not needed in order to determine that it was hot. That fact was borne upon the minds of all upon arising to engage in the business of the day. At a. m. the official temperature was 69, at 8 a. m. 76, at 10 a. m. 81, at 12 m. 84, and at 2 p. m. 89, where it remained until 6 p. m., then registeding 88.

The criminal prosecution of individuals will make the opening address. who are charged with responsibility for orporate violations of the anti-trust laws is the avowed policy of the administration, but the decision to begin a prosecution in any particular case will depend strictly upon the reasonable expectation that a conviction will result.

The recent activity of the administraion in instituting suits against some of the largest corporations in the country, and the infrequency of attempts to prosecute individuals, have naturally caused much comment, and it is frequently asked whether the government will not pursue more aggressive policy toward officers f corporations who are deemed responble for infractions of the law.

The answer to such query is that the President and the Department of Justice re in favor of the most vigorous meas ures against officers of law-breaking corporations; but it is freely confessed that it is much less difficult to prove that vioations do exist to punish the corpora to locate the responsibility with any particular officer or employe. Bonaparte Is Willing.

Mr. Bonaparte is quoted as having said Justice would like to put several high officers of corporations in jail, believing that the effect of such punishment would
